— 02 —

CloudEdge App installation and Setup

- from Google Play
- from Apple Store
- or Scan the following QR code

Download App(iOS&android)

— 03 —

Mounting the camera

Select Height and location

Hang anranCam 7-10 ft (2-3 m) above the ground. This height maximizes the detection range of the motion detection of anranCam. Avoid placing anranCam under direct sunlight.

Make sure of the reserving wire length

Reserve 10cm of end wire, fix the bottom base, avoid wire damage when camera turns.

— 04 —

Test the Wifi signal at installation position

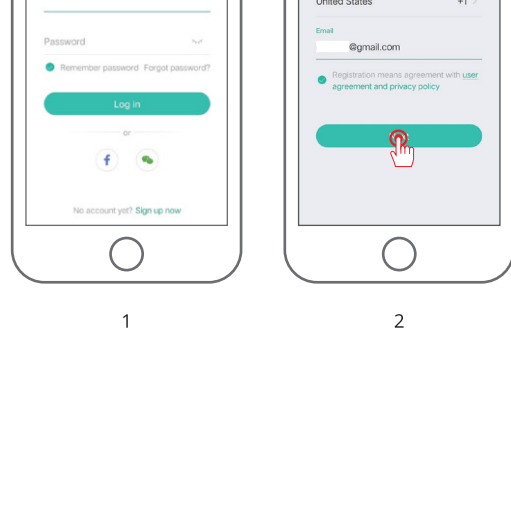

Use cell phone to test Wifi signal quality at the installation position before installing camera, make sure the Wifi router can provide good Wifi signal.

— 05 —

Register an account

- Open the APP to sign up an account. Go to the login interface, and click "Sign Up".
- Sign up with your email address, and click "Next".

1

2

— 06 —

- Set up an "Nickname" and "Password" for your APP, click "Done" to complete.

3

— 07 —

Set up WiFi for the camera

- Put both of your mobile phone and camera near the router, and the distance should be Within a 5 meters distance.

Note: wifi camera can only connect to 2.4 Ghz Wifi signal, Do not support 5Ghz Wifi. Therefore, it only needs to connect to the Wifi signal of the family in 2.4Ghz frequency band for normal use.

— 08 —

- Log in to "CloudEdge", then tap the "+" icon in the center. Tap "Smart Camera" to add device.

2-1

2-2

Safety Statement

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio/ TV technician for help.

FCC Radio Frequency Exposure Statement

The device has been evaluated to meet general RF exposure requirements. The device can be used in fixed/mobile exposure condition. The min separation distance is 20cm.

Notice: Shielded cables

All connections to other computing devices must be made using shielded cables to maintain compliance with FCC regulations.
